

Steeliner

TRUCK & TRAILER

USDA Approved Fiberglass Wall Liner • Scuffliner • Translucent Roof

Glasteel "Steeliner" products are engineered to withstand the daily punishment and abuse common to the trucking industry.

Glasteel introduces the ideal material for the truck and trailer industry. Steeliner fiberglass reinforced panels are recommended for both refrigerated and dry van bodies. Specially engineered to withstand the abuse common to the trucking industry, Steeliner provides years of low maintenance and trouble free service to you and your customers.

- **Impact & Abrasion Resistant**
- **Moisture Resistant**
- **Rust & Mildew Resistant**
- **Excellent Weathering Properties**
- **Low Maintenance Cost**
- **Cleans Easily**
- **Sizes up to 105" wide**

UV stabilized translucent roofs let natural light into the trailer allowing for safe and easy loading and unloading of freight.

Liner/Scuff panels are impact & abrasion resistant, easily cleaned and resist attack from a wide range of chemicals.
