

Consumer Warranty and Care & Maintenance

CONGRATULATIONS! The outside of your new recreational vehicle is protected by durable fiberglass reinforced panels. With proper care and maintenance, your RV siding and roof will last for many years.

EXTERIOR CARE & MAINTENANCE

Maintaining a Good Finish:

- Wash your RV with liquid detergents.
- If you wax the sidewalls, use an automotive cleaner or waxes and polishes recommended especially for fiberglass boats, showers and tubs. Follow directions on the container.

Restoring Gloss to the Finish:

Materials Required:

- Mild detergent
- Soft cotton cloth
- Rubbing compound or polishing compound
- Automotive paste wax
- Mechanical buffer (optional)

Five Easy Steps:

1. Wash with mild detergent and water.
2. Dry with clean, soft cotton cloth.
3. Apply cleaner, following the directions on the container.
(If a buffer is available, substitute polishing compound for heavy duty cleaner and buff.)
4. Rinse with water and dry surface.
5. Apply automotive paste wax and follow the directions on the container.

NOTE: Versalit Exterior Fiberglass Composite RV Panels do not have to be waxed, but should be washed regularly to be covered under warranty. Waxing does help maintain the original beauty and luster of the sidewalls.
